Re: EPA Letter dated January 14, 1981 concerning signatures

Dear Mr. Dawson,

I have recently received your other permit application back in the mail with a similar letter as on the referenced group of correspondence. I am sending back these forms for signature. As I explained in my previous letter, the EPA must have a signature in the owner block on Form #3. Signatures that are considered authorized are: Presidents', and Vice Presidents', and General Managers' signatures. Our office is aware of your situation with regards to ownership. Copies of your correspondence is on file with your applications. Please sign the enclosed forms so we can continue processing and consider you for interim status.

If you have any questions, please contact me. Your prompt attention is greatly appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Sherri Crosthwait".
